PROFILE

Jr. Art Director working from India. I ventured into the world of advertising more than 12+ years (UAE & INDIA) ago with an intention to create designs that would make people turn their heads. I believe creativity is a gift and something that cannot be replicated. Currently, I am working for Sutra Advertising (Dubai Based) in Bangalore. It's all about developing design briefs that suit the brand's purpose. Thinking creatively to produce new ideas, concepts, videos and logos. I cherish a colourful and artistic world outside the cubicle too. A person who finds ideas in everything around.
